

Approved Accessories List Revision Post 12/20/06

Scope of Document

Approved Accessories are required from the Dish Antenna to the Receiver and all components used in mounting and grounding

Items developed and distributed directly from Echostar Satellite LLC are to be considered as acceptable by default. Examples: DPP44, DP34, DP21, SW21, SW44, SW64, DPP Separator

Process for Item Submission

Submittal Process for an entity attempting to have an item Approved for use in DISH Network Installations:

- a. Provide submittal package to include all the items detailed in sections 2-5 of the Vendors Submittal Package Checklist.
 - i. Submittal Form
 - ii. Samples
 - iii. Specification sheets
 - iv. Test reports
- b. Notification from Echostar will be provided confirming receipt of package. Qualification lead time estimate will also be provided at that time based on size of queue and type of part.
- c. Echostar reserves the right to implement a fee plan for qualification services if submittals are not thorough, complete, or viable components.

Ship submittal package to:
