Software Upgradeable via Satellite	Yes

DISH Player-DVR 522 is an advanced two-tuner satellite receiver and integrated digital video recorder (DVR) capable of recording up to 100 hours of programming on a 120 GB hard drive. DISH Player-DVR 522's dual tuners also feature the unique ability to record two shows simultaneously and provide independent viewing of live satellite TV programming and recorded events when connected to two televisions.

FEATURES

- Two satellite tuners provide user-selected viewing options, including:
 - Single Mode²: Picture-In-Picture (PIP) on any TV.
 - Dual Mode: Separate television program viewing/recording on two televisions. Users share all recordings.
- DISH Video-On-Demand Service provides the ability to pause live TV, play, stop, fast forward and fast reverse at 4 speeds (4x, 15x, 60x, 300x), skip back (10 seconds), view in slow motion or frame-by-frame, set manual/auto record event timers and quick record, and also includes recorded events management features to play, delete or protect a recorded event.
 - Record Plus - allows viewers to choose recording location for increased flexibility.
 - Two viewers in dual mode can each record a live program while watching a pre-recorded program from the hard drive.
 - Records Dolby® Digital when available.
- Parental control locks, program information, themes lists, favorites lists, browse, one-touch channel return, closed-caption support and alternate audio.
- Stereo agile modulated output can send the second tuner's signal to multiple televisions via a home distribution.
- DISH Home Interactive TV.
- On-screen Electronic Program Guide (EPG) with instant access to up to nine days of program listing and

information.

REMOTE CONTROLS

- One Infrared (IR) 4-component universal remote control – controls “TV1”; can be programmed to operate (via IR) up to three additional components, such as TVs, VCRs and DVD players.
- One Universal UHF Pro/IR configurable 4-component universal remote control - controls “TV2” (second TV location) when configured for UHF Pro (blue key); can control “TV1” if configured for IR (green key).
- Universal UHF Pro 4-component remote control:
 - Controls the satellite receiver through walls and other obstructions.
 - Unobstructed UHF Pro operating range of up to 200’.
 - Can be programmed to operate (via IR) up to three additional components such as TVs, VCRs and DVD players.
- DVR buttons: skip forward, skip back, stop, play, pause, forward, back, record.
- Picture-In-Picture (PIP) functions to display, move or swap the PIP image
- Dedicated “TV Power” button.
- “Recover” button toggles through TV inputs to assist user in returning to satellite programming.

Dolby is a registered trademark of Dolby Laboratories

¹ Recording capacity depends on the type of programming being recorded.

² Future enabled
